Phone:	+84 123 456 789
GitHub:	github.com/Tuan-Anh-IT
Location:	Ho Chi Minh City, Vietnam

PROFESSIONAL SUMMARY

Experienced Cybersecurity Engineer with expertise in penetration testing, network defense, and threat hunting. Passionate about building secure, efficient, and user-friendly systems. Specialized in web/cloud security with hands-on experience in pentest, hardening, monitoring, and incident response.

TECHNICAL SKILLS

Web Security	HTML, CSS, JavaScript, React, Vue.js, Node.js
Programming	Python, TypeScript, PHP
Security Tools	Nmap, Wireshark, Burp Suite, Metasploit, Kali Linux
Monitoring	Grafana, ELK Stack, SIEM tools
Cloud Security	AWS, Azure, Docker, Kubernetes

PROFESSIONAL EXPERIENCE

Senior Security Engineer - TechCorp

2022 - Present

• Conduct comprehensive penetration testing for web applications and networks • Implement security hardening measures for cloud infrastructure • Monitor and respond to security incidents using SIEM tools • Develop custom security tools and automation scripts

Security Analyst - SecureNet

2020 - 2022

• Performed vulnerability assessments and security audits • Managed security monitoring and alerting systems • Conducted security awareness training for employees • Assisted in incident response and forensics investigations

KEY PROJECTS

KhoDeAzota - Educational Platform

Developed a comprehensive educational platform for exam preparation and study materials. Implemented secure user authentication, content management, and responsive design. Technologies: HTML, CSS, JavaScript, Python, PHP

Vulnerability Scanner

Built a custom vulnerability scanner with CVSS scoring and remediation recommendations. Integrated with multiple security tools and provided detailed reporting. Technologies: Python, Nmap, CVSS, REST APIs

EDUCATION

Bachelor of Computer Science

University of Technology - 2020

CERTIFICATIONS

• CompTIA Security+

• CEH (Certified Ethical Hacker)

• OSCP (Offensive Security Certified Professional)

• AWS Certified Security - Specialty
